

Market Leader Intermediate Assignment 6.2

Pages 54 - 56

Listening Parts A - C

Listen to the audio files and answer the questions in the book. Highlight any section that you are not sure about so your teacher can quickly check and explain those ones to you.

Reading Parts A - E

Complete the reading exercises to the best of your ability and highlight the ones that you are not sure about so your teacher can quickly check and explain those ones to you. In Part E, choose one or two sectors that you think are the most volatile in an economic recession and be ready to explain why.

Language Review – Parts A & C

Complete these two exercises only and then look at the graphs below for interesting trends. Use the vocabulary from Part A to describe some of the outstanding trends. In class your teacher will discuss the questions that correspond to each graph with you, so if you don't know much about the trends shown, do a little outside research about them.

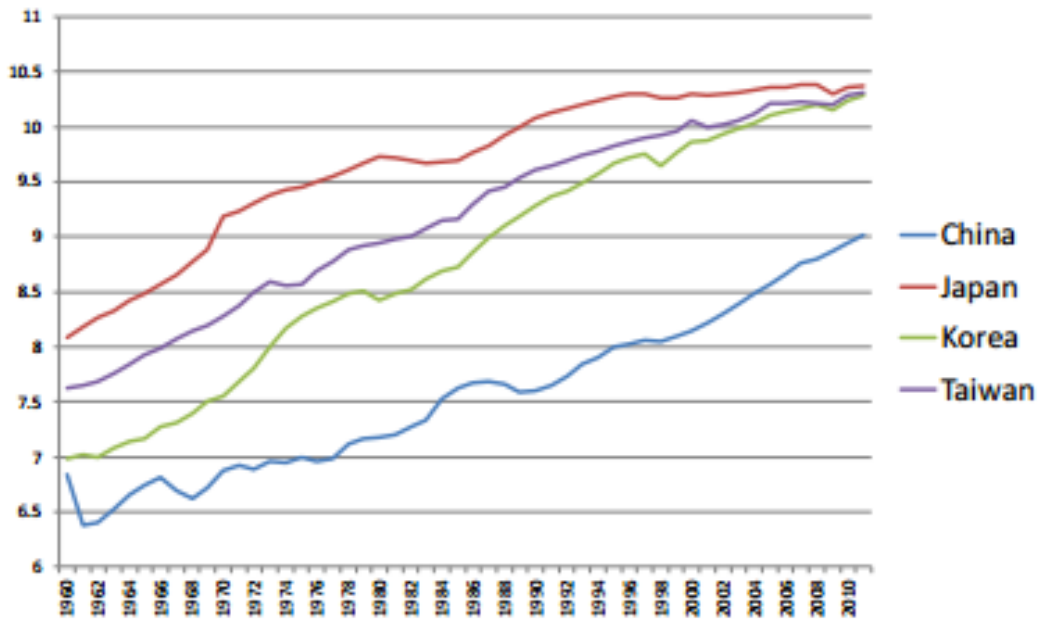

What is the overall trend in this graph?

What are the reasons for the fluctuations such as dips and spikes?

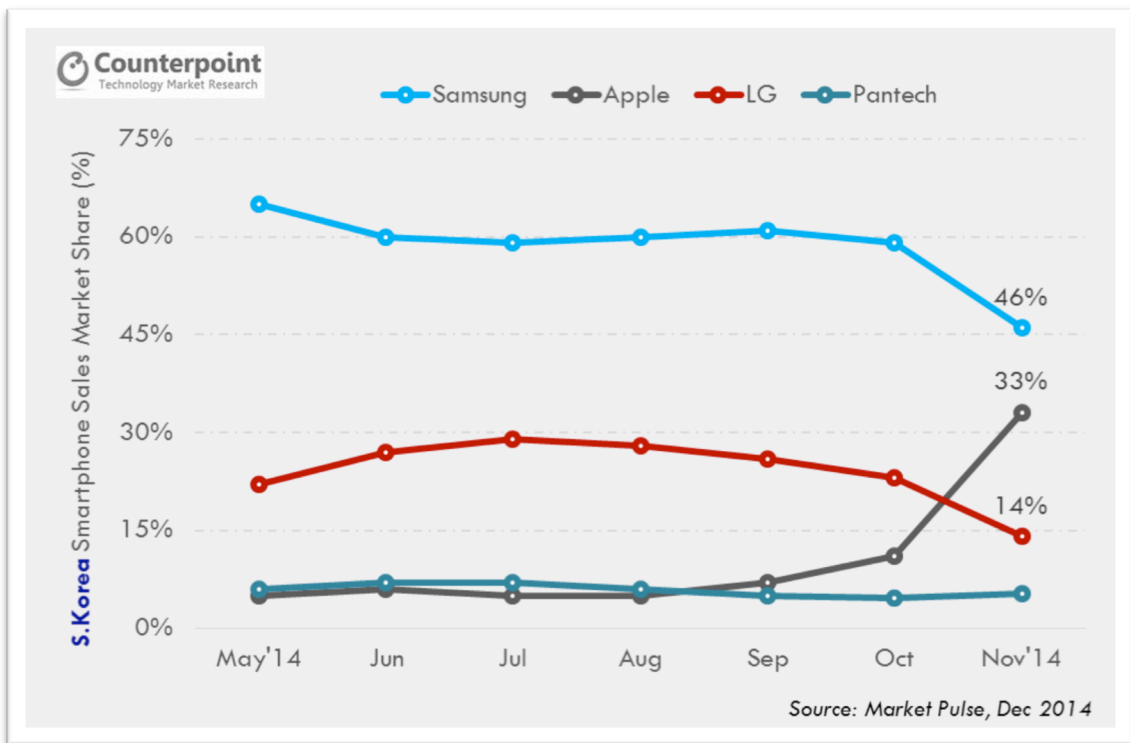

How were you affected by these fluctuations?

GDP of countries in East Asia 1960 - 2010

What is the overall trend in this graph?

What are your predictions for the future of this region?

What is the overall trend in this graph? What are reasons?

What do you predict for the future of this industry?
